Significant Achievements(Top Five)

Patent/IP/Technologies/ Varieties/Machineries Developed / Methodologies/ Recommendations	Year
Recommendations	
<p>1 The impact of early child care intervention services on the development of rural young children indicated that there was significant positive influence of it on the mental and motor development of rural young children after educating their families. The booklet focusing on early child care practices was recommended for use in ICDS project of Maharashtra state for educating the rural families for optimum development of children.</p>	2001-02
<p>2. Self care education crash courses must be offered to all the young girls prior to their entry to puberty in order to empower them to cope up with rapid pubertal changes at ease.</p>	2004-05
<p>3 MAU self care and family life education intervention model and material are recommended to all the districts for ICDS projects of Maharashtra, to the Dept. of Women and Child Welfare (MS) and to UNICEF (MS) for the welfare of rural teenage girls and also to reduce infant and maternal mortality rates, wastage of pregnancy and developmental irregularities in children in rural areas.</p>	2006-07
<p>4 Training module and VCD of intervention developed in Marathwada Agricultural University- Home Science Child Development unit is recommended to Dept. Of Women and Child Welfare for improving life skills of rural adolescent girls</p>	2006-07
<p>5 It is recommended that for appropriate development of children, families need to keep their children away from excessive use of television and cell phones and instead of it encourage them to indulge in constructive recreational activities such as outdoor games, dance ,reading, music & household work and family care activities</p>	2019-20
<p>6 As grandparental involvement in grandchildren's upbringing was found to be beneficial, it is recommended that parents need to remain positive about grandparents' involvement in child's upbringing.</p>	2020-21
<p>7 It is recommended that to avoid harmful effects of excessive television viewing on children, all the schools need to organize parent-child education programs to inculcate healthy habits about it among them.</p>	2021-22
<p>8 It is recommended that , Community education programmes need to be organized jointly by various government and non-government departments/ projects working for the welfare of children for creating awareness about adverse effects of child marriage on girls and also to make it as a people's movement against child marriage.</p>	2022-23
