### Success story-

I believe failure is the first step towards success , I entered in the college of community science completed all the semesters with good CGPA and moving towards the masters as like normal distinction student definitely do, but here comes my first step towards success journey as I did not get the admission in masters , I was disturb for few days due to failure of my 4 years hard work did not pay though I always have that one thought in the back of mind I want to do something my own, with this thought I started my new journey and following my passion to become a Bakery Chef . I completed the diploma of bakery and pastry chef in Academy of Pastry Arts, Mumbai Andheri in 2021. And its been 2 years now I am running my home bakery and baking classes very smoothly and passionately, though I got offers from Maldives, Hyderabad, Pune but I always have passion and my dream to do something my own and its just a start there is lot more to come , lot more to learn, and lot more to earn !
